

POLYGUARD PRODUCTS APPLICATION REFERENCE GUIDE	Foundation	Retaining Walls	Split Slabs	Balconies Plaza Decks	Parking Decks	Roofing Underlayment	Tunnels	Planters / Roof Gardens	Mechanical Rooms	Air/Vapor Barrier	Thru Wall Flashing	Window/Door Flashing	Shower Pans	Blindside	Underslab	Elevator Pits	Underlayment Floor Tile	Commercial Enclosures																		
WATERPROOFING SYSTEMS																																				
BELOW-GRADE SHEET MEMBRANES																																				
UNDERSEAL® PRODUCTS																																				
Blindside™ Membrane Pre-Applied membrane for blindside waterproofing applications					√		√							√		√																				
Underslab Membrane Pre-Applied membrane for blindside waterproofing applications							√	√							√	√																				
PRM™ (Puncture Resistant Membrane) Post-Applied, Positive Side Vertical and Positive-Sloped Horizontal Waterproofing with Built-in Protection	√	√	√	√	√		√	√	√																											
650 PRODUCT																																				
650 Membrane Post-Applied, self-adhering sheet membrane for below-grade applications	√	√	√	√	√		√	√	√				√			√																				
HORIZONTAL FLUID-APPLIED WATERPROOFING																																				
FLUID-APPLIED PRODUCT																																				
Overseal-H™ Cold-Liquid-Applied membrane used for horizontal surfaces.			√	√	√		√	√									√																			
BELOW-GRADE FLUID-APPLIED WATERPROOFING																																				
FLUID-APPLIED PRODUCT																																				
Commercial Stretch Post-applied membrane used waterproof below-grade walls	√	√																																		
BELOW-GRADE FLUID-APPLIED DAMPPROOFING																																				
FLUID-APPLIED PRODUCT																																				
PRO 1000 Post-applied membrane used to dampproof below-grade walls	√	√																																		
WATERPROOFING SYSTEMS – SPECIAL USE																																				
BALCONY WATERPROOFING																																				
BALCONY PRODUCTS																																				
Balconyguard™ Membrane Wood deck balcony membrane for structures covered with concrete				√																																
105-12 Flashing Extra thickness flashing membrane for wall flashing applications				√																																
MISCELLANEOUS SHEET MEMBRANES																																				
MEMBRANES																																				
NW-75 Membrane Asphalt overlay material for bridge deck and pavement work					√																															
Tileguard™ 40 Mil Tile Anti-Fracture Membrane																	√																			
Deckguard® HT High-Temperature Roofing Underlayment						√

AIR BARRIER SYSTEMS																			
ABOVE-GRADE FLUID-APPLIED AIR BARRIERS																			
FLUID-APPLIED PRODUCTS																			
Airlok Flex® <i>Fluid-applied vapor impermeable air barrier membrane</i>										✓									
Airlok Flex® VP <i>Fluid-applied vapor permeable air barrier membrane</i>										✓									
Airlok Flex® VP LT <i>Fluid-applied vapor permeable air barrier membrane</i>										✓									
Airlok Flex® WG <i>Fluid-applied vapor permeable air barrier membrane</i>										✓									
Airlok Flex® WG LT <i>Fluid-applied vapor permeable air barrier membrane</i>										✓									
Airlok® STPE WRB Spray-N-Roll <i>Fluid-applied, vapor permeable, air & water resistive barrier</i>										✓									
ABOVE-GRADE SHEET AIR BARRIERS & FLASHINGS																			
SHEET AIR BARRIER MEMBRANES <i>with slit release</i>																			
Airlok® Sheet 200 BU/NP <i>28 Mil, Butyl Compound, Self-Adhesive Air Barrier Membrane</i>										✓									
Airlok® Sheet UV 200 BU/NP <i>28 Mil, Butyl Compound, Self-Adhesive Aluminum Air Barrier Membrane</i>						✓		✓		✓	✓	✓							
Airlok® Sheet 400 NP <i>40 Mil, Rubberized-Asphalt, Self-Adhesive Air Barrier Membrane</i>										✓									
Airlok® Sheet 400 HT/NP <i>40 Mil, Rubberized-Asphalt, Self-Adhesive, High Temp Air Barrier Membrane</i>										✓									
Airlok® Sheet UV 400 NP <i>40 Mil, Rubberized-Asphalt, Self-Adhesive Aluminum Air Barrier Membrane</i>						✓		✓		✓	✓	✓							
Airlok® Sheet UV Ultra 400 NP <i>40 Mil, Rubberized-Asphalt, Self-Adhesive Aluminum Air Barrier Membrane</i>						✓		✓		✓	✓	✓							
STPE FLUID-APPLIED FLASHING																			
Airlok® STPE WRB Flash-N-Roll <i>Fluid-applied air & water resistive barrier</i>										✓		✓							
Airlok® STPE WRB Gun-N-Spread <i>Fluid-applied air & water resistive flashing</i>												✓							
Airlok® STPE WRB Detail-N-Joint <i>Fluid-applied air & water resistive flashing / detailing sealant</i>												✓							
Detail Sealant PW™ <i>Fluid-applied air & water resistive flashing / detailing sealant</i>												✓

DRAINAGE SYSTEMS

DRAINAGE & PROTECTION PRODUCTS

POLYFLOW® PRODUCTS

Polyflow® BD <i>Drainage for balcony decks with less than 3" of concrete and foot traffic only.</i>				✓													
Polyflow® 10 <i>Soil Drainage Mat for vertical applications</i>	✓	✓					✓	✓									
Polyflow® 15 <i>Soil Drainage Mat for vertical applications</i>	✓	✓					✓	✓							✓	✓	
Polyflow® 18 <i>Soil Drainage Mat with Built-In Protection for horizontal applications</i>			✓	✓	✓		✓	✓									
TOTALFLOW™ SYSTEM																	
Totalflow™ <i>High-profile drainage mat for vertical water collection and high-capacity horizontal water flow</i>	✓	✓					✓	✓							✓	✓
