

You are cordially invited to Hanover's Lunch & Learn.
 Sit back and enjoy lunch on Hanover® while learning about innovative pavers and new and exciting paver applications. Hanover's AIA/CES approved presentation will earn participants one AIA/CES HSW credit.

Types of Pavers - Prest Pavers on-grade, elevated pavers, granite pavers, interlocking concrete brick, asphalt block, permeable paving units, curbing, paver systems for wind uplift resistance

Paver Application Photos

Paver Installation Methods - Differences in application methods with emphasis on base preparation, setting beds, joint treatments and edge restraints, vehicular vs. pedestrian applications

Special Paver Installation - Elevated paver installation such as ballast or pedestal set, pedestal systems

Getting Results - Unit paver selection, qualifying contractors, effective specifications

WWW.HANOVERPAVERS.COM

For over 40 years, Hanover® Architectural Products has participated in the development of pavers as they became an integral part of architectural design. Custom color and blending have become Hanover's trademark, as well as the ability to meet the special needs of each individual project. From green roofs and rooftop pools to on-grade entrance ways and driveways, Hanover® can provide the highest quality unit paver for your next project.
